

AERIAL WORK PLATFORM SAFETY TRAINING COURSE
LOCAL #52 ATTENDEES

This is a one day class that will train you on the safe operation of three different types of Aerial Work Platforms- Scissor Lifts, Boom Lifts and Pusharound One Person Lifts.

Class Dates: Wednesday, April 3, 2012.

Class Times: The class begins at 9AM and ends at approximately 1-2PM.

Course Content: Approximately 50% of the training time is spent in a classroom where we will cover:
The responsibilities (as stated by ANSI) of: Manufacturers, Dealers, Owners, Users and Operators.
General equipment operation
Equipment and work site inspection.
Safety quiz (this is not graded, the quiz is reviewed by the class together)

The other 50% of the training is actual hands on equipment operation where we will:
Perform a pre-operation inspection
Review the safe operation of each unit
Individually operate each piece of equipment

Certificate of Attendance: Each person will receive a certificate and a laminated wallet card stating they were trained on the safe operation of aerial work platforms.

Cost: \$135.00 per person, payable in advance. We accept Visa, Mastercard, American Express, Discover, personal check or money order. Please reserve early, the classes are limited to only 28 people.

Cancellation Policy: You may cancel, or reschedule your class. However, for a full refund, we must be notified at least 48 hours prior to the class date.

Lunch and beverages will be supplied during the class.

If you require any additional information, please contact Carol Flammia at 1-800-564-7743 x 9302.
